Portfolio: https://kaihriileriina.netlify.app

Career Objective

Motivated and detail-oriented Java Full Stack Developer with hands-on experience in Java, React.js, SQL, and full-stack web development. Passionate about building dynamic, user-friendly applications with a focus on clean code and scalability. Eager to contribute to innovative projects while continuously upgrading my skills.

Technical Skills

- Languages: Java, SQL, HTML, CSS, JavaScript
- Frameworks & Libraries: React.js, JDBC, Servlets, JSP, Hibernate, Spring, Spring Boot
- Database: MySQL
- Tools: VS Code, Eclipse, Git, GitHub, Maven, npm
- Others: REST API, Netlify

Projects

Student Management System

- A dynamic full-stack application to manage student records with CRUD functionalities.

- Add, update, delete, and view student records.

- Integrated front-end and back-end using Servlets, Hibernate, and MySQL.

Technologies: Core Java, JDBC, Servlets, Hibernate, Spring, Spring Boot, MySQL

Library Management System

- Full-stack project with separate Admin and User portals.

- Admin: Manage books, users, and user details.

- User: Browse, read books online, and maintain cart.

- Implemented secure user authentication for both portals.

Technologies: React.js, Node.js

Utility Applications

- Quiz App: Real-time score display with dynamic UI.

- Calculator: Table layout-based design with interactive input.

- Digital Clock & Stopwatch: Real-time functionalities using JavaScript.

Technologies: HTML, CSS, JavaScript
